

Ruhlan Rzayev
Frontend Developer

About

Hi, I'm Ruhlan Rzayev, a passionate Frontend Developer with a strong foundation in HTML, CSS, and JavaScript. Currently studying Information Technology at Azerbaijan University, I focus on creating user-friendly and visually appealing websites. I'm always eager to learn new technologies and improve my skills through personal projects and coding challenges. I value teamwork, adaptability, and continuous self improvement. I aim to create high-quality, functional websites while staying updated with industry trends.

Education

AZERBAIJAN UNIVERSITY (2022-2026)

B.Tech Information Technology

DIV ACADEMY (2024-2025)

Front-End Developer

Holberton School Azerbaijan (2025)

Front-End Developer

Work Experience

FRONTEND DEVELOPER AT INTERN INTELLIGENCE

January 2025 - February 2025

During my internship at Intern Intelligence, I worked on real-world projects, including a personal portfolio website and a login page. I gained hands-on experience in front-end development using **HTML, CSS (SCSS), JavaScript and BaaS** improving my problem-solving and UI/UX design skills. Collaborating with a team helped me adapt to a professional work environment and write clean, efficient code. Projects I developed at Intern Intelligence:

- **Personal Portfolio Website** - A fully responsive portfolio website showcasing skills and projects.
- **Login / Register Page** - A secure and user-friendly authentication interface with a modern UI design.

Projects

TODO PROJECT

A Todo application built with React and Tailwind CSS. Users can add, edit, delete tasks, toggle between light and dark themes, filter tasks by status, and have their data persist using localStorage.

Technologies:

- React (useState, useContext, localStorage)
- Tailwind CSS

RESTAURANT PROJECT

A fully responsive restaurant website built with HTML, CSS, and JavaScript, featuring a complete and ready-to-use design.

Technologies:

- HTML
- CSS
- JavaScript

JQUERY PUZZLE GAME

A dynamic puzzle game built with jQuery where players drag and drop shuffled pieces into place. Features multiple difficulty levels, a limited help system, and time tracking for a complete game experience.

Technologies:

- HTML5 & CSS3
- jQuery 3.7
- jQuery UI 1.14
- Custom JavaScript
